Complaint

I was mentally, physically, & sexually abused throughout the process of an illegal investigation. I am not a criminal nor am I mentally ill of any kind. I am still traumatized by the occurrence that had happened. My rights were violated as a citizen I was treated poorly and lost all of my friends and family

because of this matter. I was forced to take medication I did not need or want to take and I suffer from side effects that are not in my control and it is making it hard for me to take care of my son also to go to work to be able to take care of him. My devices, home, & transportation are being tampered with I have reported this incident to the state of Arizona and the United States Department of Justice and have not had any luck with resolving this problem as I am defenseless and not able to defend myself due to the abuse of power and authority.
